

Dear AFICC Fellow and Past Academy members:

The time has come for renewal of your 2010 fellowship with the Academy of Forensic & Industrial Chiropractic Consultants (AFICC). The 2010 annual seminar is scheduled for June 5 and 6, 2010, at the Huntington Beach Hilton.

A new year has emerged and congratulations, you are still in practice. The profession continues to be attacked from all directions. We are paid for time and knowledge, and the key to success is knowledge.

The Academy of Forensic & Industrial Chiropractic Consultants (AFICC) is an organization devoted to providing resources and information which will allow your forensic practices to flourish. We actively engage in political activity germane to industrial issues.

The major difference between AFICC and the two other state organizations is that AFICC confines elite membership to the best in the profession. AFICC also encourages communication amongst AFICC Fellows in a supportive environment. Our structure affords fellows the opportunity to receive answers to their questions or problems through the members' website, e-mail, or by telephone. We provide Fellows continuous access to the developments which affect their practices. The majority of Fellows are well placed within the licensing agencies, the major insurance companies, and the legal profession. The wealth of information is endless.

This year's annual AFICC seminar will include the new MTUS Guidelines, a review of the AMA Guides 5<sup>th</sup> Edition for spinal injuries, the use of Functional Capacity Evaluations by Leonard Matheson, PhD, and evidence based medical support for worker conditioning programs. The presenters include Max Moses, MD, orthopedist, who will provide invaluable insight and information on running a medical-legal practice. What is even more important is that you will be with the leaders of this profession.

Enclosed is a membership renewal form with a return envelope. The renewal is \$350.00, which includes a one-year membership and the June 5 and 6, 2010, annual seminar. The non-member and late registration fee for this seminar is \$500.00. With your AFICC renewal, you will receive a membership certificate appropriate for framing.

Please join other professionals like yourself, who have shaped this profession, and will continue to protect your medical-legal practices.

Respectfully,

Craig D. Gunderson, DC, FAFICC  
President  
Academy of Forensic & Industrial Chiropractic Consultants
